CSCE DINNER MEETING NOTICE

April 19, 2018

University of Alberta Faculty Club, 11435 Saskatchewan Drive

Yellowhead Freeway Conversion

Natalie Lazurko, P.Eng.

City of Edmonton

Abstract

This presentation will provide an overview of the Yellowhead Trail Freeway Conversion Program. The conversion of Yellowhead Trail to a freeway will help to move goods and services more efficiently through the City, improve traffic flow as traffic volumes grow, and will significantly improve safety at several high-collision locations. This presentation will focus on the program overview and status, including timelines and the high level work plan for this billion dollar project.

Speaker Bios

Natalie Lazurko, P.Eng., is the Planning and Design Supervisor for the Yellowhead Trail Portfolio with the City of Edmonton's Integrated Infrastructure Services Department. She has been working with the City for 10 years, with a focus on planning and design of transportation infrastructure. Her involvement with Yellowhead Trail has spanned 10 years and has included supporting and lead roles through strategic planning, concept planning, preliminary engineering, funding applications, public engagement, and preparation for construction.
